

Initial quick test log

Model series/Model designation	168.033	Workshop ID	
VIN	---1680332J64xxxx	Steering	RIGHT
Total distance driven		Version	5.1.6/10/2005 (2005-09-15)
Battery voltage	12.11 V		

ECM - Engine control monolith				- f -
MB number	HW version	SW version	Diagnosis version	Pin
1661500179	00.2000	44.2000	3/06	7
Code	Text		Status	
P0136-002	The value of sensor G3/1 (O2 sensor downstream TWC) is not within the lean range after the deceleration phase.		Not defined	
P0170-002	Self-adaptation: Mixture is too lean.		Not defined	
P0170-002	Self-adaptation: Mixture is too lean.		STORED	
P1813	S40/3 (Clutch pedal switch) : Possible cause: Open circuit or Short circuit to ground		Not defined	
P0100-002	B2/5 (Hot film MAF sensor) : The signal voltage is too high.		Not defined	
P0100-001	There is a sporadic fault in component B2/5 (Hot film MAF sensor).		Not defined	
P0100-001	There is a sporadic fault in component B2/5 (Hot film MAF sensor).		STORED	
P0100-004	B2/5 (Hot film MAF sensor) : The signal voltage is too low.		Not defined	
P0100-004	B2/5 (Hot film MAF sensor) : The signal voltage is too low.		STORED	

ESP - Electronic stability program				- f -
MB number	HW version	SW version	Diagnosis version	Pin
1685450832	10.2001	10.2001	2/00	9
Code	Text		Status	
C1140-024	N49 (steering angle sensor)		STORED	
C1143	Component B34/2 (ESP pressure sensor 2) is faulty.		STORED	
C1504-009	The system is switched off. Steering angle sensor is not initialized.		STORED	

AB - Airbag				- f -
MB number	HW version	SW version	Diagnosis version	Pin
0018203126	51.1998	51.1998	5/00	13
Code	Text		Status	
27-000	Fault in communication with component B48 (Front passenger seat occupied and child seat recognition) or there is a cable fault.		STORED	
37-064	Seat is installed, but component X55/4 (Right front seat contacting strip) is not plugged in.		STORED	

RFL - Radio frequency locking/electric central locking				- ! -
MB number	HW version	SW version	Diagnosis version	Pin
				1

ICM - Instrument cluster with maintenance interval display				- f -
MB number	HW version	SW version	Diagnosis version	Pin
1685409011	34.2001	46.2000	3/20	15
